

A SAFETY GUIDE FOR GHOSTS AND GHOULS.

While trick-or-treating for your candy, make sure to keep these safety tips handy.

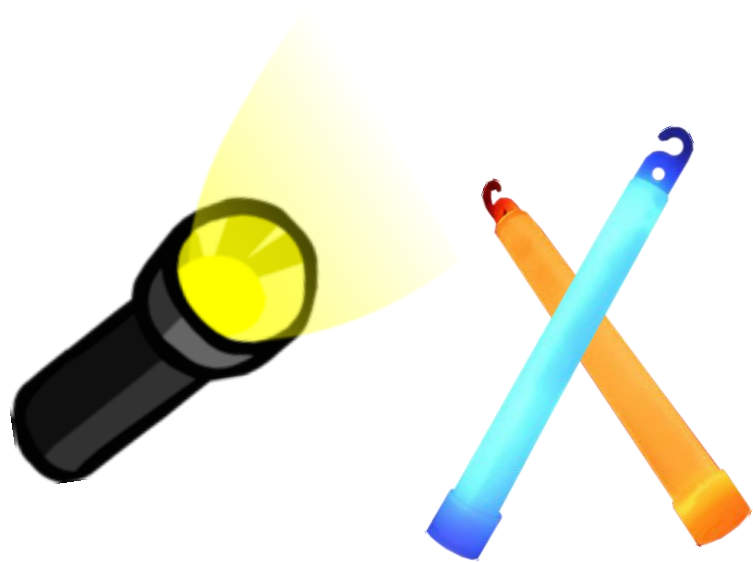

Whether you are wearing a mask or a tiara, make sure you include reflective clothing with your costume!

Make sure while you are going door to door, to look both ways when crossing streets!

Don't forget to grab a **glow stick** or **flashlight** before you leave for trick-or-treating!

Stay alert and only trick-or treat in well-lit neighborhoods!

Before you dive into your bag of treats, make sure you have an adult check **any open candy!**

Stay safe and **never** approach a stranger's car or **go** into a stranger's home!

Grab a friend or your parents and
make sure you travel in a group
and with an adult!

Check out this video to review the safety tips
we just went over!
